4. Work Schedule: The excavator has completed projects in Northboro and Westboro. The water management crews and excavator are presently in Marlboro. Next in line for the excavator and water management crews are projects in Natick and Sherborn.

The door on the excavator has been replaced. It cost the Project \$500 and insurance picked up the balance.

Crews are still finding breeding wherever they find standing water. Areas are starting to dry up a bit because of the lack of rain.

Requests for spraying are still coming in but at a level Project personnel can keep up with. Project personnel have caught up with the backlog of request which came last month. Hot spots are Billerica, Tewksbury and Wilmington.

No word back yet from the Town of Harvard on joining the project. Also, Mary Anne DiPinto, DEP has yet to schedule a meeting regarding 401 discharge permit requirements.

The State FY'99 budget hasn't been approved yet. We still don't know if they are going to institute the line item appropriation or the Trust Account approach.

The Project's pesticide supply is running low. We have to wait until the budget is passed before we can purchase more.

Perrin is Frank not here today for medical reasons. The Commissioners wish him a speedy recovery.

The meeting adjourned at 11:45 A.M.
