April 13, 2022

Please be advised that North Fork Helicopters, under coordination with the Central Mass. Mosquito Control Project and the Billerica Board of Health will be conducting helicopter applications for mosquito larval control over selected Billerica wetlands on or about April 19-23, 2022. Weather plays an important factor in these applications, and we will have staff call your office to confirm the actual date(s) of application. I have included a map of the proposed treatment areas for your information.

This is the same program we performed in past years, and we again will be flying out of the Warren Farm property on Boston Road. If you have any questions on this program, please call our office at (508) 393-3055 or e-mail me at deschamps@cmmcp.org. Thank you.

Sincerely,
