

Auburn 2011:

Mosquitoes with West Nile Virus were confirmed September 8 in a surveillance trap set by CMMCP on August 31. The area was sprayed September 1, 2011, so no further action is needed at this time.

THE APPLICATION SCHEDULED FOR SEPTEMBER 1 IS COMPLETE.

Mosquitoes with West Nile Virus were confirmed August 31 in a surveillance trap set by CMMCP on August 23. The area was sprayed August 25, 2011, so no further action is needed at this time.

Mosquitoes with West Nile Virus were confirmed August 24 in two surveillance traps set by CMMCP on August 17 and August 18.

CMMCP catch basin maps were checked and basins were retreated in the areas. Spray areas have been designated for the evening of September 1; see maps and street listings below. **Please note: additional areas may be done in town by citizen's request.**

Additional surveillance traps have been set in the areas to gauge population densities and for additional virus testing if necessary.
